This festival is in commemoration of the exodus of the children of Israel from Egypt, and the exemption of their dwellings from mourning, when the first-born of the Egyptians were visited by the angel of death, and is generally termed by the I-raelites "Pesach," meaning "to pass over." The festival now is shorn of the sacrifice of the paschal lamb, as in the days of old, in memory of the blood sprinkled on the doorposts, but in the homes of Israel the advent of the festival is recognized by the heads of families reading or reciting the history and traditions of the faith. Among the orthodox Israelites the history of the deliverance from Egypt is read to the young from the book 'llagadah." while in the Reformed Jewish Church it is discarded. The reformed Israehtes have also abandoned the ancient rites and customs formerly observed at Passover. During the festival no Israelite is permitted to partake of leavened bread, but no restriction is placed upon their indulging in other food. The regular services were had in the synagogue yesterday afternoon, and to-day the festival was celebrated in all its solemnity.

As it was early in the evening. the whole neighborhood was speedily aroused, and the police having been sent for, a thorough search was made for the robbers, but they were not found.

TICTOR SEWING MACHINES.

Among its many points of excellence may be mentioned that it is the only lock-stitch machine that has its needle self-setting. The needle cannot be set wrong. It has a shuttle-carrier that obviates all friction of shuttle, rendering the machine nearly noiseless.

It has a self-adjusting bobbin-winder, requir-ng no change to wind the bobbin. Combines all the latest improvements, having no wires or spiral springs connected with its

working parts. It has a positive thread-controller and tension, equiring no change in sewing from the finest to the heaviest material.

The new patent shuttle is the most convenient and perfect working shuttle in use. The tension does not change from a full to an empty bobbin. It is so easily operated that it requires little instruction, and there is nothing in it to get out of perfect working order. THE SALES OF LAST YEAR.

NEW TRIUMPHS.

The statistics from sworn returns of the sales of of Sewing Machines in 1872, (reported in 1873) show that the SINGER COMPANY sold over 45,000 more machines than any other company, again proving the great popularity of their machines. We give the sales of the three principal companies: The Singer Co. 219,758; the Wheel-er & Wilson Co. 174,088; the Howe Company 145,000; the sales of the other companies are comparatively insignificant, none of them selling over 50,000, and some not over 1000. The Singer is now offered as incomparably the best Sawing Machine in existence. Sold on the most liberal terms; thorough instruction given and satisfac-tion guaranteed. C. C. BERRY, Agent,
